NOTE.—The amount of sales for individual months includes some sales effected in previous months.

* Tax collected mainly upon sales in the month shown, but actually received in the following month. The rate of tax was 2½% from 1st August, 1930, 6% from 11th July, 1931, 5% from 26th October, 1933, 4% from 11th September, 1936, 5% from 22nd September, 1938, 6% from 9th September, 1939 and 8½% from 3rd May, 1940.

From 22nd November, 1940, the tax was increased to 10%, or in some cases to 15%, and tax at 5% was levied on some commodities formerly exempt. From 30th October, 1941, the tax on some classes was increased from 5% to 10% and on some 10% and all 15% classes to 20%. Some 5% classes were exempted.

NOTE.—The above tables are based upon the records of the Commonwealth Meteorologist. The divisions correspond approximately with the statistical divisions shown on the map in the frontispiece of the Official Year Book of New South Wales, each division being subdivided into two sectors indicated by the letters N, S, E, or W according as they constitute the northern, southern, eastern or western portion of the division concerned. Normal Rainfall is based on the period ended 1929.

* Incomplete. Returns are not supplied from rural areas with a population totalling 725,000 persons, comprising 50 per cent. of the population of "Country" and 27 per cent. of New South Wales.

NOTE.—Under the National Security (Building Control) Regulations (published 18th November, 1940) consent of the Commonwealth Treasurer must be obtained before application is made to a Council for a permit in respect of a new building or alteration estimated to cost more than £5,000. The limit was reduced on 19th February, 1941, to £1,000 for hotels, and on 22nd April, 1941, to £3,000 for all other buildings. As from 12th June, 1941, the Treasurer's consent must be obtained in respect of all buildings (except dwelling houses for which the estimate does not exceed £3,000) and for all alterations to cost more than £250 for dwelling houses, £500 for hotels and shops or £2,000 for other buildings. Since 11th September, 1941, consent has been required for any new building which is to contain more than two flats. Consent lapses if the building is not commenced within six months.

The "value of private buildings" shown above relates to the value of building permits issued by local government authorities and not to approvals granted under National Security Regulations.

NOTE.—This index represents the ratio of monthly clearings to the average for the months concerned during the five years 1926-1930. Seasonal fluctuations are, therefore, virtually eliminated. The trend has been smoothed out by taking a three months moving average. The index is adjusted to eliminate the effects of Treasury Bills and other special transactions on behalf of Governments, and the effects of bank amalgamations. No allowance has been made for normal growth or change of price levels.

‡ Index not ascertainable on account of suspension of State Government banking transactions.

No. 47.—Stock Exchange Index (Sydney)—1929-1941.

The following index of the values of the principal Company shares on Sydney Stock Exchange embraces the ordinary shares of companies (excluding banking companies) whose business is conducted wholly or largely in New South Wales. The prices of individual shares are unweighted. There is no base period as the index represents the ratio per cent. of the average prices of ordinary shares to their par values, adjustment being made where capital is written off or bonus shares issued.

Index of Employment—N.S.W.

Owing to the incidence of enlistments and entry into wage-earning employment of persons not normally wage-earners, the index of employment and unemployment has been discontinued since April, 1940. Indexes from June, 1933, to April, 1940, together with a description of the method of compilation, were shown on page 27 of the "New South Wales Statistical Bulletin" for March Quarter, 1941.

* Prior to October, 1937, the living wages for awards and agreements under State jurisdiction were determined by the Industrial Commission of New South Wales. Since October, 1937, the basic wages of the Commonwealth Court of Conciliation and Arbitration have been adopted for State awards. † For some awards the rate was 6d. higher.

NOTE.—Current Living Wage rates of State Tribunals in other States in November, 1941, were:—Brisbane, 89s.; Adelaide, 87s.; Perth, 90s. 5d. In Melbourne and Hobart the Federal basic rates (as shown in footnote to Table 51) are usually applied.

‡ From October, 1937.

§ From June, 1934, to December, 1939, inclusive, quarterly variations commenced a month later, viz., in March, June, September and December.

NOTE.—The foregoing rates up to February, 1934, represent the Harvester Wage (42s. in 1907) adjusted by retail price index numbers, plus the "Power's 3s." From February, 1931, to February, 1934, the adjusted rate was reduced by 10 per cent. This reduction has been applied in calculating the rates shown above.

As from May, 1934, a new basic rate was determined, the "Power's 3s." abolished, and the 10 per cent. reduction restored to marginal rates.

In July, 1937, a fixed loading of 6s. was added to the basic rate in two instalments, viz., 3s. from 1st July, 1937 and 3s. from 1st October, 1937.

The rates in the other capital cities from 1st November, 1941, were:—Melbourne, 88s.; Brisbane, 84s.; Adelaide, 84s.; Perth, 85s.; Hobart, 85s.

NOTE.—The Sydney index of wholesale prices relates chiefly to basic materials and foods weighted in accordance with consumption in the years 1911-13. Neither the component items nor the weighting have been varied. Consequently the index is a measure of changes in wholesale price levels based on usages which have altered substantially since the period on which the weighting was determined. As such it is useful as an indication of long-term trends over the past 40 years which it covers, on the assumption that the relative importance of component items remained constant. But it no longer serves as a measure of price variations from month to month or from year to year of commodities weighted in accordance with present-day consumption. Comparisons of wholesale price index numbers since 1938-39 are shown in the following table.

¶ Particulars for year 1940-1941.

§ Figures for 1931 and 1940 exclude articles posted or messages telegraphed in other states of Australia and received in New South Wales. On this account the figures cannot be compared with those for earlier years.

Note—The exports in 1921, 1931 and 1939 include articles produced in other States of Australia. Since 1st January, 1912, the Commonwealth Customs Department has classified all goods produced in the Commonwealth simply as "Australian," without distinguishing, as formerly, the particular State where they were produced.
